Siller Land & Longhorns

Mac & Andrea Siller | (916) 850-5525 | Penn Valley, CA

- WELCOME -

For a long time, following Longhorn sales, folks would gather around and talk about how the sale went. And for a long time folks would say "What would you do differently?" Each sale had something little to offer and something little to change. All those little things add up. So five years ago we took our ideas and put them to use with the first East Coast Longhorn Classic.

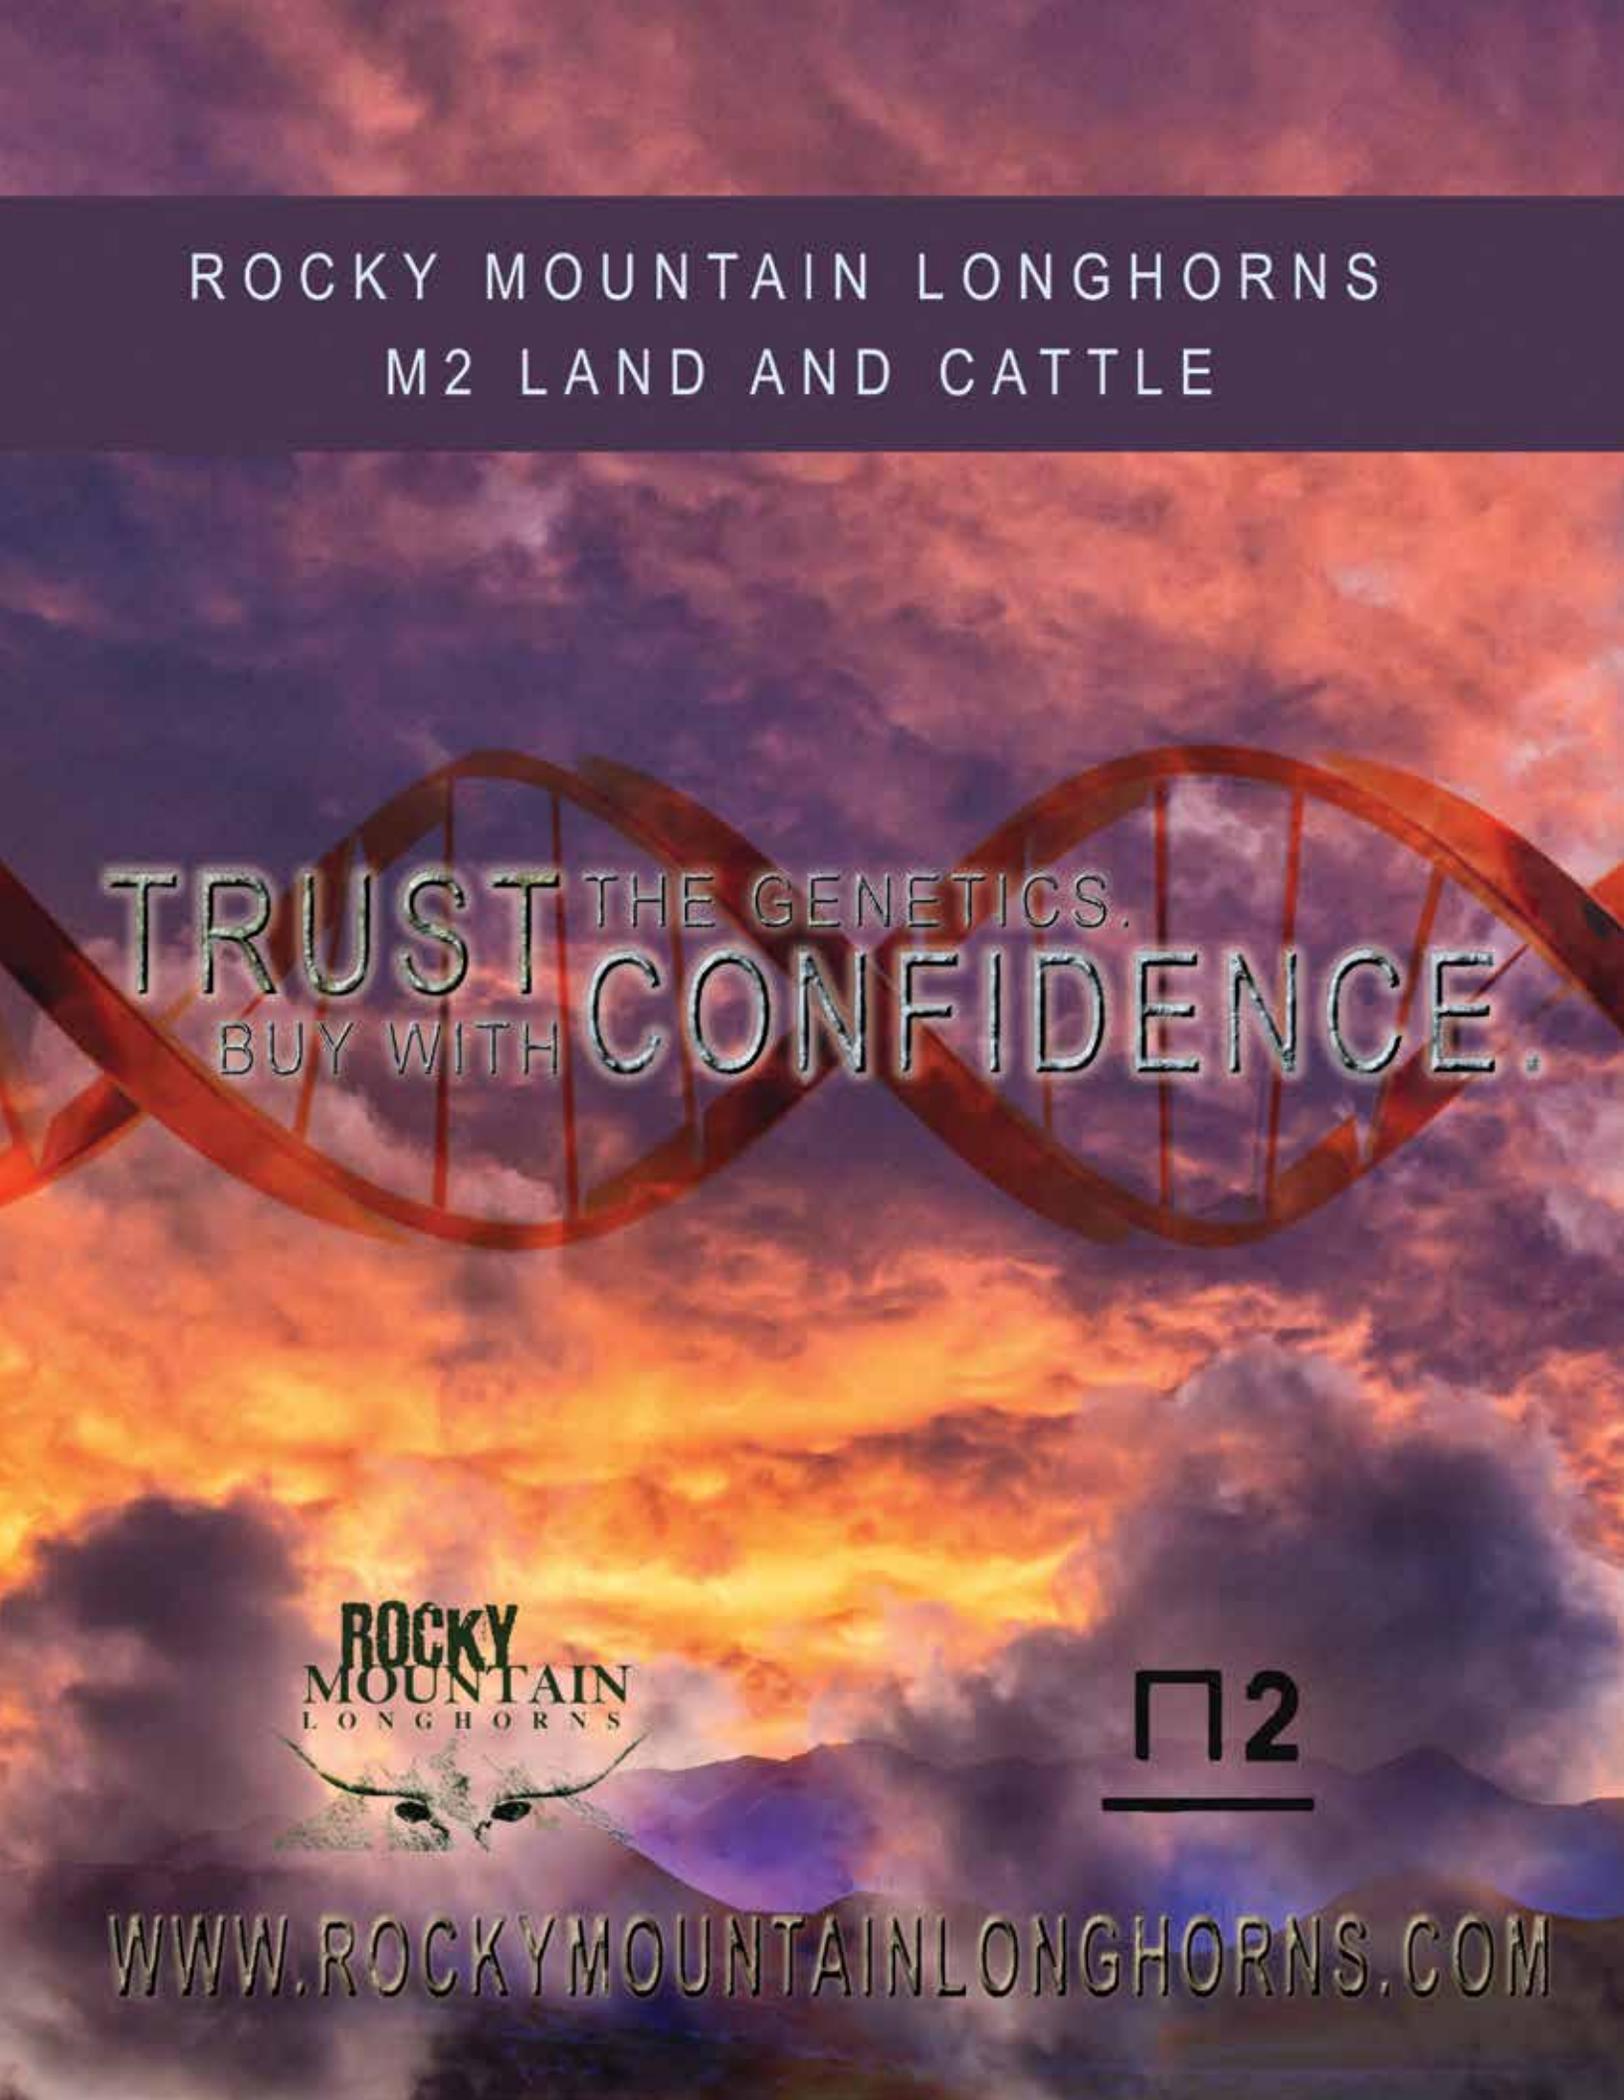

What ideas did we have? We gave 0% commission to sponsors, highlighted the over 80" TTT animals in a pedigree, produced the Futurity Money Earners Numbers, put an Easter Egg hunt in, and came up with the Bow Carpenter Rule where we'd give away surprises. And what has that accomplished? We are fortunate to only have four Pos in the last four years. Why's that important? We believe folks come into this sale with the right expectations. Our average dipped in year two but has increased every year since. That's because folks are trusting the market and trusting what the sale can do.

We love the Longhorn world. And a sale is a great opportunity for folks to trust in the sale hosts to promote and market their cattle the best way possible, get them out in front of as many people as possible. A sale should be a partnership between the consignors and the sale. When the sale does what it's supposed to do- promote, be professional in their dealings, get catalogs in hands, get shipping figured out for folks, and when consignors do what they're supposed to do- get their cattle in shape, have them bred, promote them, the tide rises and lifts all ships.

We'll see you in Virginia.

THE FUTURITY MONEY EARNERS

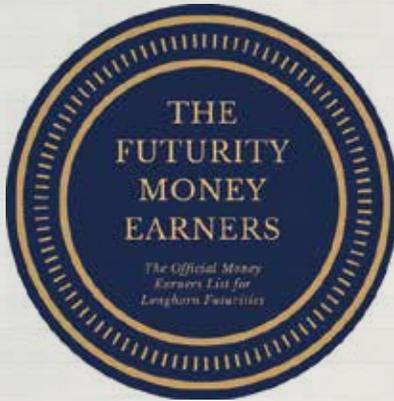

THE OFFICIAL MONEY EARNERS LIST FOR LONGHORN FUTURITIES

This year of 2022 brings a whole different level to the Futurity world. Our goal is much like the Millennium Futurity's "For the promotion of Longhorns." We want to add another value to these cattle that are quantified. In 2022 we are going to offer five award buckles for five different categories. Multiple futurities have already committed to helping collect this data meaning that their shows will be added to these figures. Any checks won in any of these shows will be represented on the Futurity Money Earners List for both the sire and dam of that money winning animal, as well as the owner of that animal. Special thank you to Molly & Jaymie at Hired Hand for their belief in this concept. Hired Hand has sponsored this year's buckles.

2022 FUTURITY MONEY EARNER AWARD BUCKLES PRESENTED BY HIRED HAND SOFTWARE

- Bull of the Year awarded to the sire whose offspring wins the most money
- Cow of the Year awarded to the dam whose offspring wins the most money
- Exhibitor of the Year awarded to the show contestant that wins the most money
- Producer of the Year awarded to both sire and dam whose offspring wins the most checks of the year

Please contact Beardavidson@gmail.com to add your futurity to the list.

Why the yellow highlights?

We wanted to be different and create a new feature to your standard sale catalog. Each of the yellow highlighted animals are over 80" TTT. Thanks to Hired Hand, we were able to track down many of these measurements. Although we're well aware that there are many great cows under 80" TTT, we wanted to give some extra promotion to the consignments who pulled from the heart of their herds. Thank you to each and every consignor!

JOHN & CHRISTINE TALLEY

Talley Longhorns

Boonsboro, MD | 8 years

We started Talley Longhorns in 2014. At the time we planned to have less than ten cows. We aspired to breed cows with horns in the upper 70s and 80s through artificial insemination by the industry's leading bulls.

When you were a kid, what did you want to be when you grew up?

When I entered college, my dream was to be a writer and reporter. John's dream was to be an architect or an engineer.

If you could change one thing you've done for your Longhorn operation what would it be?

We have passionately enjoyed breeding and showing Longhorns. I feel every mistake and success in breeding has been an opportunity for greater learning and understanding. So, I don't have any regrets on our choices so far. If we could have changed one thing in our program, it would probably be to have acquired more great cows we were bidding on in auctions when we first started. If we could go back in time, we would have kept bidding on some of the outstanding females we missed out on.

We transitioned from Double C Ranch. It was impossible to market since there are some any Double C Ranches already!

When you were a kid, what did you want to be when you grew up?

Guy was mesmerized by big trucks. I wanted to join the military. Ask us today what we want to be when we grow up and we'd say we have both found our happy place raising cattle and traveling. Besides family and friends, there is nothing better than looking out at the pasture, enjoying this beautiful breed and God's country.

If you could change one thing you've done for your Longhorn operation what would it be?

Ask us this question in the winter and we'd say we would like to pick up and move south! We have learned a lot along the way and make changes as we go. Don't hesitate to invest in working pens, marketing, good equipment, and great genetics.

MIKE DAVIS

When you were a kid, what did you want to be when you grew up?

Initially a Fireman, then a Football player. My wife would tell you that I have yet to grow up

If you could change one thing you've done for your Longhorn operation what would it be?

I would have pure more thought into my pastures for rotational grazing, runways to move cattle more efficiently, and optimizing pastures for hay bales.

Involved with Longhorns since the late 1980s

When you were a kid, what did you want to be when you grew up?

I got into horses at a very early age and felt sure that I would be involved in the horse world somehow. I worked for several people in the horse world and even spent a summer at Ruidoso Downs in NM working at the racetrack there. But it wasn't the same as the showing end of the business so I went back home to North Carolina and dove in hard to the AQHA show world. In fact, that is how Ben and I met. We were both at an AQHA event in Raleigh, NC. I eventually moved to Virginia and was involved in the horse industry for many more years.

If you could change one thing you've done for your Longhorn operation what would it be?

I guess the only thing I would change is to have more land here at the farm for the cattle. Having to lease land that is not nearby bugs me. And it's really not that far away in the grand scheme of things, but me and my OCD tendencies would rather have the cattle closer.

LLOYD ESH

When you were a kid, what did you want to be when you grew up?

I wanted to be a Major League Baseball Player.

If you could change one thing you've done for your Longhorn operation what would it be?

If I could change anything I would have started raising Longhorn cattle 30 years earlier!

When you were a kid, what did you want to be when you grew up?

A farmer. I spent the summers with my grandfather working on his farm. It's a lifestyle that I have always loved! These days I pour concrete to support my Longhorn addiction!

If you could change one thing you've done for your Longhorn operation what would it be?

Honestly, nothing. Sure, there have been a few cows that we have sold too early and too cheap, and some bull that didn't turn out. But overall, it's been great! These days we keep it smaller and enjoy the time with our kids and grandkids!

If you could change one thing you've done for your Longhorn operation what would it be?

I've made a bunch of mistakes! I don't know if I would change a lot because I have learned from every one of them and along the way made so many great friends across the country. I wouldn't want to take a chance that I wouldn't have met you all!

Leah wanted to become a Friendly's waitress and Kyle wanted to be a farmer. You can tell our parents raised us on 90s Country Music, we sound like a Joe Diffie song.

If you could change one thing you've done for your Longhorn operation what would it be?

They say the best time to plant a tress is 30 years ago, but we think it applies to our Longhorn adventure as well. We have an amazing group of people here on the East Coast to collaborate and pursue this passion with. We couldn't be happier and are excited to raise our daughter around our extended family. Just wish we had started sooner.

When you were a kid, what did you want to be when you grew up?

Growing up I enjoyed being a part of what I thought was a little corner of Heaven. I took every opportunity to shadow my uncle and our founder, Tyson Leonard. As president of Leonard New River Ranch, I value the daily contact and interaction he created.

If you could change one thing you've done for your Longhorn operation what would it be?

Joanna always wanted to work in the business world as an executive. During our 30 years of marriage, we have combined and built on these interests to run our businesses.

If you could change one thing you've done for your Longhorn operation what would it be?

When you were a kid, what did you want to be when you grew up?

I grew up in the grocery business and my father had cows for 65 years. So I'm doing exactly what I wanted to do from a very young age.

If you could change one thing you've done for your Longhorn operation what would it be?

I think I would give them more time to age before I sold them. I sold many females I didn't like that turned out to be really great cows.

DALE METZ & DECARLO NOBEL

Dale Metz & DeCarlo Nobel

Krum, TX | 5 years.

When you were a kid, what did you want to be when you grew up?

When I was a kid, I wanted to be a soldier and a pilot, both of which I managed to become. DeCarlo lived in LA and said he could become a gang member, as most kids did, or he could dream big and be a doctor which he accomplished.

If you could change one thing you've done for your Longhorn operation what would it be?

I would have learned more about the industry and how to choose the best animals for what I wanted to accomplish before I jumped in and spent a lot of money. Doc and I both would say we would have kept the herd to a more manageable size so if things change, such as a drought, it would have been easier to weather the storm.

CURT & KATE MULDER

Texas North Land & Cattle

Lowell, MI | 14 years

When you were a kid, what did you want to be when you grew up?

Kate wanted to be a back-up singer for Stevie Nicks. Curt had many dream jobs including race car driver, excavator operator, mountaineer, and builder

If you could change one thing you've done for your Longhorn operation what would it be?

We'd love to change our method of catching and handling our cattle. There always seems to be a little better way...a little tweak here and a little tweak there. We almost had it perfect at our last farm...then we moved. We still have a lot of work to do to get our current system able to handle every different circumstance.... But Curt is an engineer.... It'll never be quite right. Regardless, our challenge is that our cows always get in the chute backwards facing the wrong way.... Especially when its pregnancy checking time. Our current solution...while Curt gets frustrated pushing and pulling, Kate and the kids dance around like rodeo clowns until they give in and cooperate.

DAVE PACE

Circle Double J Ranch

Edgewood, TX | 5 years

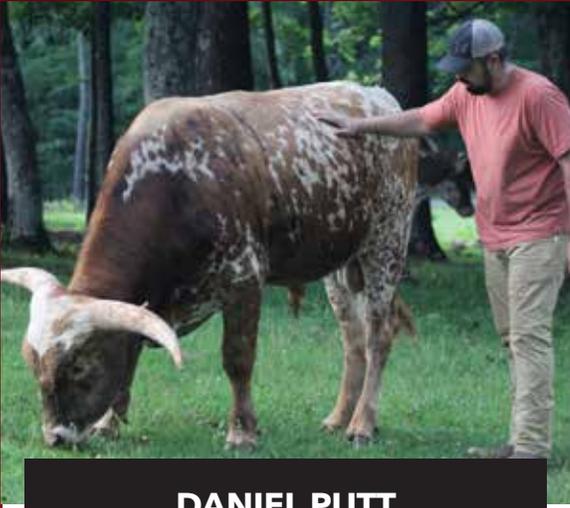

When you were a kid, what did you want to be when you grew up?

A pro baseball player. My dad played in the Phillies' minor league system. He continued to play weekly until he had a stroke at 82. While I loved the game, he was much better and proved how hard it is to make it all the way to the show. I still enjoy the game and use the things that I learned playing team sports in my everyday business even if people aren't willing to pay to watch me do it.

If you could change one thing you've done for your Longhorn operation what would it be?

Sell a cow for \$350,000. Haven't figured that one out yet.

When you were a kid, what did you want to be when you grew up?

Whatever it took to follow in my father's footsteps, to become the man he was to me growing up as a kid.

If you could change one thing you've done for your Longhorn operation what would it be?

Maybe would have purchased a chute sooner, but as in building and constructing a herd within two years, I don't think I would have changed a thing. Wish I would have joined into the Longhorn breed a lot earlier in life because I have talked and met some absolutely amazing people in the industry in just two years.

When you were a kid, what did you want to be when you grew up?

As a kid I always thought I'd want to be a farmer.

If you could change one thing you've done for your Longhorn operation what would it be?

Used better quality sires.

When you were a kid, what did you want to be when you grew up?

John wanted to own a beer joint. And Christy wanted to be a Roller Derby Queen

If you could change one thing you've done for your Longhorn operation what would it be?

To learn patience and realize that Rome wasn't built in a day. Make sure that we meet expectations with a good dose of reality.

I wish we would have started with registered stock sooner.

To top it off she should have a calf at side by Hubbells Tiger King, a knockout **20 Gauge** son who is out of a **Cowboy Catchit Chex** daughter and Mark's Tiger Lily Cow. LOT 31

DOB: 3-19-17 PH#: 3/7 Reg:277860

Breeding: AI'd top **Drop Box**.

Comments: If you like easy going cows here's your best bet. She's easy to handle, will eat from a feed bucket, and has plenty of milk. We're retaining her last two calves, a **Drop Box** heifer and a Beast heifer. Her twist comes naturally because of both **Drag Iron** and **Overkill**. She's got loads of color to burn too. To top it off she'll be AI'd back to **Drop Box**. This package will give you a wonderful calf.

Breeding: Bull calf by Elfego born 3/12/22. Exposed to Tuff It Out from 6/13/22 to sale.

Comments: Never met a cow with a more well-suited name. Sometimes she's sweet, sometimes she's sassy... but this girl raises a phenomenal calf. DH ROWDY'S HONEYBEE raised two daughters (LTL FLICKA BEE 839 & LTL TUFF HONEYBEE 839) who sold registered faster than Tyson Leonard's bidding hand in competition. Currently raising a handsome, healthy 2022 BULL calf by our direct SADDLEHORN X JESTER son, ELFEGO. Measured 69.25" TTT on 12/17/2021. Current measurement will be announced. She's still plenty young and will throw the pretty yellow dun brindle.

Comments: Becca's Charm is a twisty handle-bar cow out of the famous JBM Becca II cow. The Becca family is outstanding, and the outcross calf by our 3S Danica bull Century could be outstanding. This last calf pairing was a spectacular mulberry brindle bull. Becca's Charm is super gentle in the pasture and the pens. Don't let Bear outbid you and steal this one. ;)
